PHILADELPHIA, May 20, 1893.

FREDERICK FRALEY, Esq.,

President of the American Philosophical Society:

Dear Sir:—The Joint Special Committee appointed by the Councils of Philadelphia to secure a proper representation of historical and other exhibits from Philadelphia at the World's Columbian Exposition, to be held at Chicago, propose taking the Liberty Bell and other objects in possession of the city, and are desirous of securing additional relics. An inspection of the contents of the Hall of your Society convinced the Committee that an exhibition of the following objects in your possession would greatly add to the interest of Philadelphia's display, viz.:

- 1. Chair in which Thomas Jefferson wrote the Declaration of Independence.
 - 2. Chair owned and used by Benjamin Franklin.
 - 3. Electrical device invented by Franklin.
 - 4. Chair of Joseph Bonaparte from his residence at Bordentown.
 - 5. Polygraph used by Jefferson.
- 6. Unsigned copy of the Declaration of Independence made by Jefferson, with interlineations.

And other relics of historical and antiquarian interest.

Proper attention will be given to the care and preservation of all articles exhibited under the custodianship of the Committee.

I therefore earnestly request that your Society will take into consideration the proposition to permit the above-named articles to be exhibited at Chicago under the auspices of our Committee.

Yours truly,

ELIAS P. SMITHERS, Chairman.

The Secretaries were authorized to reprint four pages in Prof. Cope's paper on "The Osteology of the Lacertilia," and to distribute the same with the next number of the Proceedings.

And the Society was adjourned by the President.
